

## Personal information protection policy

Chuki bus corporation(below “we”) sets a basic policy as follows about handling of personal information.

### **【Management of personal information】**

It's correct and customer's personal information is kept in the latest state, and to prevent hacking to personal information, loss, damage, garble and a leak, we have the necessary crackdown by which maintenance of a security system, maintenance of a control system and staff education are thoroughness, put security measures into effect and manage personal information strictly.

### **【The use purpose of personal information】**

I'll use the personal information I kept for a customer for a mail and sending of material as an answer to a contact from us, guidance of business and your question.

### **【Elucidation to a third person and prohibited of an offer of personal information】**

We'll manage the personal information I kept more than a customer appropriately and elucidate personal information in a third person except for the case when I come under next one of them.

- The occasion with the customer's agreement.
- When we have to elucidate to the trader's who entrust business for a customer to do the service hoped for.
- When elucidation was judged to be necessary based on a decree.

### **【Security measures of personal information】**

We're taking the appropriate security measures to stop hacking to personal information, loss, destruction, garble and a leak.

### **【One's own inquiry】**

After confirming that I'm the person himself when a customer hopes for one's own inquiry of personal information, correction and elimination, it'll correspond.

### **【Obeying and reconsideration of a decree and a model】**

Additionally the Japanese decree which is applied about possessed personal information obeys a model as well as reconsiders the contents of this policy accordingly, and we make an effort toward the improvement.
